EDUCATION

Nile University

Cairo, Egypt

Bachelor's Degree in Computer Science

2020-2024

Major: General Computer Science

Arab Academy for Science, Technology & Maritime Transport (AAST)

Engineering Studies

2018 – 2020

PROJECT

AI Radar Intelligence Dashboard

- Stack: Next.js, TypeScript, SQLite, Reddit/YouTube/GitHub APIs
- Real-time monitoring platform aggregating developer signals across platforms to track trends in the AI ecosystem with NLP classification and analytics dashboards.

Radwan Fried Chicken — Premium Scrollytelling Experience

- Stack: Next.js 15, Framer Motion, Canvas API, Tailwind CSS
- Cinematic e-commerce landing page with a custom canvas-based animation system rendering 120+ frames and physics-based motion for storytelling.

Radwan Fried Chicken — With offers

- Stack: Next.js 15, Framer Motion, Canvas API, Tailwind CSS
- Cinematic e-commerce landing page with a custom canvas-based animation system rendering 120+ frames and physics-based motion for storytelling.
- Admin page for adding offers and images

Agent Expenses Tracker

- Stack: React, TypeScript, Supabase, Tailwind CSS
- Financial tracking system with immutable historical records, automated monthly reporting, and custom settlement logic for partial payments.

Arabic Sentiment Analyzer

- Stack: React, Vite, Gemini AI, Recharts, Tailwind CSS
- AI-powered sentiment analysis tool optimized for Arabic text datasets with data visualization dashboards and multi-format data ingestion.
-

Lecture Or-Go

- Stack: React, Vite, Gemini AI, Recharts, Tailwind CSS
- Lecture and sessions quick sharing protocol, quick sorting, Managing multi-file sharing, Admin and user.

Work Experiences

UK Call Center Support

- Provided customer support for UK clients handling high-volume technical and billing inquiries while maintaining strong customer satisfaction KPIs.
 - Responsibilities: Technical troubleshooting, account management, CRM support, customer communication, problem resolution.
-

Medpush

- Multi-Social Listening tools for Social-media platforms, with a sentiment analysis for bulk comments.
 - Technologies: Management system, Improving productivity, Tracking repetitive points.
 - Responsibilities: Develop the tools, Deploy the tools, Maintain the tools.
-

Carma Tools

- Exposure to fintech operations and Agile engineering work-flows within a global payments environment.
 - Technologies: Team Management system, Improving productivity, Tracking weak points.
 - Responsibilities: Team collaboration, operational support, documentation, understanding digital payment systems.
-

Corporate Websites & Order Management Systems

- Developed responsive corporate websites and database systems for managing orders and customer inquiries.
- Features: Authentication, order management, client dashboards, responsive UI.
- Technologies:

Frameworks: Zoho, WordPress.

Frontend: React.js, HTML, CSS, JavaScript, TailwindCSS.

Backend: Node.js, Express.js, JWT, REST APIs.

Database: MongoDB / SQL.

AI Tourism Chatbot — Graduation Project

- AI-powered chatbot that answers tourism-related questions about Egyptian cultural sites using NLP and dynamic APIs.
- Features: Natural language query handling, tourism information retrieval, conversational responses, secure API integration.
- Technologies:

Frontend: Next.js, JavaScript, TailwindCSS, REST APIs.

Backend: Node.js, Express.js, JWT, Dotenv, AI APIs / NLP Models.

Database: Supabase.

CERTIFICATES

Machine Learning & AI Training Datacamp: Completed 20+ specialized courses in Machine Learning, Deep Learning, NLP, Computer Vision, and Big Data, working with Python tools including Scikit-learn, TensorFlow, Keras, PySpark, and XGBoost.

TECHNICAL SKILLS

- **Programming Languages:**

JavaScript, TypeScript, Python, C++, C#, Java, HTML, CSS, SASS.

- **Frontend Development:**

React.js, Next.js, Tailwind CSS, Redux, Styled Components, CSS Modules, React Query, React Context API, React Table, Recharts, Axios.

- **Backend Development:**

Node.js, Express.js, RESTful APIs, JWT Authentication,

- **Databases:**

MongoDB, MySQL, Supabase (PostgreSQL).

- **AI / Machine Learning:**

Scikit-learn, TensorFlow, Keras, Natural Language Processing (NLP), Chatbot Development.

- **AI Platforms Integrations:**

Claude, OpenAI, Gemini, Hugging face, Kudos, Deeps, Voice Models, Image Models.

- **Tools & Platforms:**

Git, Linux, REST API Integration, API Development, Debugging, Agile Development.

SOFT SKILLS

- Problem Solving
- Communication Skills
- Teamwork & Collaboration
- Time Management
- Adaptability
- Critical Thinking
- Documentation & Process Organization

LANGUAGES

- Arabic — Native
- English — Fluent
